

Full Textured Finger Cots - Super Fit - F900

Manufacturing Standard: ASTM D3772-15 (2021)

Product Code

F900

Features

Made from natural rubber Latex, Least powdered, Natural latex color, Full surface textured, Rimless. Surface designed for easy & tight gripping. Chlorine Free. **Stress & Pain free on workers fingers**

A Anti-static treated, protect devices from static electricity caused by human skin.
S. M. Available size, Small, Medium.

Application

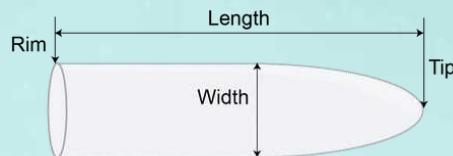

General purpose for safety on human skin and protecting devices from contamination.
(# For use in precision parts, especially for delicate slippery devices.)

For medical purpose covering first aid bands over cuts on fingers.

Conforming (EU) 2017/745 MDR under CE registration no. DE/CA22/00176812

Mass & Dimensional Information:

		Small	Medium	Large	X-Large	XX-Large	Remarks
a. Average mass per piece	g	0.36 ± 0.02	0.38 ± 0.03				
b. Width at mid & flat	mm	22 ± 1	26 ± 1				
c. Length without rim (Cut)	mm	60 ± 2	60 ± 2				Adjustable
d. Film thickness in double walls	mm	0.22 ± 0.04	0.22 ± 0.04				Adjustable
e. Thickness at tip	mm	> 0.20	> 0.20				Adjustable

Length & Thickness are adjustable to meet customer's requirement

Size Large & X-Large are available upon customer's requirement.

Physical Properties

a. Tensile Strength	Mpa	> 16
b. Elongation	%	> 500%

ESD Control

Surface Resistivity	Ohms/cm2	10 E 9-11.
---------------------	----------	------------

Packaging Information

- 100 pcs in zipper pouch, 250 pouches in a shipping carton.
- 144 pcs (1 gross) in paper case, 100 cases in a shipping carton
- 5 gross (720 pcs) / Poly bag, 40 poly bags in a shipping carton
- 10 gross (1440 pcs) / Poly bag, 20 poly bags in a shipping carton.

Storage condition & Shelf Life

Storage indoor at dark place & lower than 25°C. Shelf life: 2 years from manufacturing date.

Test Report & Certification

- Safety Data Sheet
- ROHS test report (F100)
- REACH test report (F100)
- ISO 9001
- CE registration no. DE/CA22/00176812
